THE NEW FORESTER **GT** EDITION

We've gone beyond extraordinary with the Forester GT Edition. Designed by renowned Masahiko Kobayashi, former Chief Designer at Subaru Corporation, with over 25 years of experience. The brainchild behind Levorg, WRX, WRX STI, first-generation XV and more. Now, get ready to come face to face with this new GT Edition – rugged yet refined, sophisticated with a sporty edge. Start defying convention with the Forester GT Edition.

01 Front Bumper Lip Extension

Added for a sleeker look.

02 Rear Bumper Lip Extension

Offers added protection to the bumper area while giving it a rugged accent.

03 Side Skirts

Lend a more robust feel.

04 Special Leather Seat Upholstery

Inspired by the cabins of high-performance grand tourers from Europe.

05 Bespoke Alloy Wheels

Exclusively manufactured to complete the bold look of the Forester GT Edition.

06 Roof Spoiler

Improves aerodynamics and handling due to more effective downforce.

07 360° Around View Monitor

Makes manoeuvring and parking in tight spaces easier with the four cameras, strategically positioned for a clearer view.

08 Panasonic New-generation Display Audio

8-inch Display Audio System with Apple CarPlay and Android Auto connectivity.

CONFIDENT TO THE CORE

Subaru Global Platform

Taking superior driving capabilities to a new level, the Subaru Global Platform delivers improved manoeuvrability, reduced vibration and noise, plus the confidence to navigate all roads.

Subaru e-BOXER

The new-generation Subaru e-BOXER combines Motor Assist with two of Subaru's core technologies: Boxer Engine and our signature Symmetrical All-Wheel Drive. Expect a smoother, more comfortable drive, perfectly complementing its sporty SUV looks.

The e-BOXER is only applicable to the 2.0i-S EyeSight Hybrid model.

Symmetrical All-Wheel Drive

Designed to distribute power to all wheels for better steering response. It offers surefooted stability even at high speeds or in bad weather, plus balance and traction on wet roads too.

EyeSight Driver Assist Technology

The Subaru EyeSight is our award-winning driver assist technology that gives you an extra pair of eyes on the road.

1 Pre-Collision Braking & Throttle Management

Warns you with a buzzer and a flashing indicator on the dash. It brakes to reduce impact and possible collisions. Pre-Collision Throttle Management helps avoid frontal collisions.

2 Lane Sway & Departure Warning

Helps you stay alert with a buzzer and a flashing indicator. When you drift to the edge of your lane, it warns you about inadvertently leaving the lane.

3 Adaptive Cruise Control & Lead Vehicle Start Alert

Adjusts your speed automatically to keep a set distance from the lead vehicle. Lead Vehicle Start Alert prompts you when traffic starts moving again.

ELEVATED PRACTICALITY

Spacious Boot

Everything you need goes into the large, 520 litres* of boot space.

- Increased cabin space for more comfort
- Widened cargo door for easy loading
- Foldable seats for increased cargo space

Luxurious Cabin

Stretch out in maximum comfort with the roomy and well-equipped interior.

High Ground Clearance

A high ground clearance lets you drive through uneven and rough terrains with ease.

- A high 220mm of ground clearance
- Drives easily through rough and uneven terrains
- Prevents undercarriage damage

*Applicable to Forester 2.0i-L EyeSight.

SUBARU

FORESTER

Welcome to a world of new possibilities.

The Forester offers comfort, safety, and versatility to support you through all your daily adventures—while encouraging you to go on new ones. With a tough, compact body that's easily manoeuvrable yet spacious and comfortable inside, Forester gives you the peace of mind from knowing everyone's fully enjoying their time.

Ready for anything.

Face new challenges. Explore the great outdoors. Do all the things you always wanted to do. It's easy with the Forester's distinctive design that triggers your desire for adventure. With its sharp yet robust styling that exudes confidence and capability, Forester effortlessly handles all your outdoor adventures while keeping everyone happy, comfortable, and safe.

Performance you can trust. Capability you can feel.

The Forester gives you total driving confidence with its fun-to-drive nature, responsive handling, and outstanding ride comfort. Balanced and stable around turns even with its SUV height, the Forester was carefully engineered to reduce fatigue on extended adventures for an enjoyable driving experience for all. And with Symmetrical All-Wheel Drive and the improved X-MODE standard on all models, you can reach your destination with comfort and peace of mind.

X-MODE and Hill Descent Control

Confidently conquer any road and enjoy the Forester's true driving potential with X-MODE. Select [SNOW/DIRT] mode for slippery surfaces covered with snow, dirt, or gravel, or [D.SNOW/MUD] mode for especially treacherous roads on which tyres can become stuck, such as deep snow, mud, or dry dirt.*1 Plus, Hill Descent Control helps maintain a controlled and constant speed even on slippery downhill, adding even more peace of mind to your drive.*2

SI-DRIVE*3

Subaru Intelligent Drive (SI-DRIVE) lets you drive how you want, when you want, in any scene. Select Intelligent Mode for balanced, smooth, and environmentally friendly performance, or Sport Mode for an immediate and linear torque-rich throttle response for sporty and smooth driving at any speed.

High Ground Clearance

The Forester was designed for not only high SUV ground clearance, but also with careful consideration for approach, departure, and break-over angles. All have been optimised to help you conquer obstacles without sustaining damage or getting stuck.

*1 2-mode X-MODE only available in premium grades.
 *2 Driver is always responsible for safe and attentive driving. Effectiveness of Hill Descent Control depends on many factors such as vehicle maintenance, weather, tyre, and road conditions.
 *3 Optional.
 *4 When equipped with 18-inch wheels. Measurements may vary according to model, region, and/or wheel size. Please contact your local authorised Subaru retailer for more details.

Plenty of space for all your memories.

An expanded cargo area, easier-to-use power rear gate*, and cargo light are just some of the things that make the Forester the most versatile and convenient yet. Supportive of even the most active lifestyle, Forester is ready to help you do all the things you love doing, and make each adventure more meaningful.

Power Rear Gate*

The power rear gate allows access to the cargo space with a single switch, even when your hands are full. The inner lock switch lets you conveniently close the rear gate and lock all doors at the same time.

Cargo Area

The wider opening and square design make it easier to organise, load, and unload even large objects without needing to tilt them. The backs of the 60/40-split folding rear seats have been optimised for a flatter cargo floor, making it easier to store longer items with them folded down. Plus, the sides of the cargo area are made of easily wiped-clean, durable material on which dirt and scratches are hardly noticeable, so you can fully enjoy your rugged outings with peace of mind.

Cargo Features

The 12V power supply, rear seat folding switch, and bag hooks are consolidated in the same area for ease of use. The cargo net hooks are installed in the four corners of the cargo area for convenient luggage net use.

* Optional.

Comfort for everyone.

The Forester provides comfort to every passenger, in every seat. Its convenience begins even before you enter the vehicle, as the door openings have been specially designed to make getting in and out easy for everyone. Once inside, you'll notice the expanded and spacious cabin, with conveniences such as the seatback pockets and rear ventilation system, while the quiet cabin reduces unwanted road noise and vibrations so everyone can share quality time together on the road.

Centre Console Box

The centre console box compartment is large enough to store your electronic devices like small tablets. There's also a 12V power socket inside for your convenience.

Power Sunroof*

The available inner-sliding sunroof's large opening provides a sense of spaciousness while leaving plenty of headroom for all passengers.

Convenient Seat Access

Seat height, side sill placement, and door pillar design allow smooth seat access for rear passengers.

Side Sill Steps

The rear side sill steps are wider, flatter, and have a slip-resistant surface for convenient roof rail use.

* Optional.

Feel connected, wherever you go.

Safely enjoy the conveniences of smartphone connectivity while on the go, with services such as Apple CarPlay*¹ and Android Auto*². Designed with both advanced functionality and ease of use in mind, the Forester provides you with the latest infotainment functions and intuitive controls. Combined with comfortable front seats that encourage a natural driving position, you'll feel right at home, no matter how far you go.

Apple CarPlay*¹*³ and Android Auto*²*³

Use today's most popular apps with Apple CarPlay*¹ and Android Auto*². Voice recognition capabilities allow hands-free use, keeping everybody safe while reducing distractions when you're on the road.

Multifunction Display*³

The 6.3-inch LCD multifunction display at the top of the instrument panel provides you and your passengers with useful information in an easy-to-understand view.

Meter Display*³

The 4.2-inch full-colour LCD meter display helps you understand useful driving information with a quick glance so you can keep your eyes on the road.

Side View Monitor*³

The Side View Monitor projects images on the multifunction display from a camera mounted on the bottom of the passenger side door mirror—a blind spot in many driving situations—for added safety and convenience when manoeuvring around close objects.

Rear View Camera

When you shift into Reverse, the camera displays a live colour image on the head unit display along with guidelines to making parking easy. Plus, a rear view camera washer washes dirt off the lens to ensure a clear view.

*1 Apple CarPlay is a trademark of Apple Inc., registered in the U.S. and other countries.

*2 Android and Android Auto are trademarks of Google Inc.

*3 Optional.

Apple CarPlay and/or Android Auto may not be available for all models and regions.

Please contact your local authorised Subaru retailer for more details.

Driver is always responsible for safe and attentive driving. Please refrain from operating the touchscreen while driving.

Subaru Core Technology

Subaru's core technologies identify the Subaru brand and give you the unique driving feel you can find only in a Subaru. These core systems allow Subaru vehicles to live up to its standards in performance, comfort, safety, and reliability while keeping its promise to deliver enjoyment and peace of mind to all passengers.

01 SUBARU BOXER Engine

A boxer engine, or a horizontally opposed engine, is an engine configuration in which its pistons move toward each other in a horizontal direction. Subaru has been committed to the SUBARU BOXER engine for over 50 years for its many advantages over other engine types, providing durability and reliable performance in its vehicles.

Increased Stability
The low centre of gravity and flat design give it better side-to-side stability than other engine types.

Naturally Balanced
The engine's flat design is inherently rigid and self-balancing, generating less vibration than other engine types.

02 Symmetrical All-Wheel Drive (AWD)

Subaru's Symmetrical AWD distributes power to all wheels for better traction on wet and slippery roads. Laid out in a horizontally symmetrical plane, this system has a well-balanced low centre of gravity design for a more stable and safer ride.

03 Lineartronic + Active Torque Split AWD

Lineartronic adjusts to any ratio in its range for smooth and stepless gear changes that keep the engine in its most efficient range for efficient and smooth acceleration, driving performance and better fuel efficiency. It comes paired with Subaru's Active Torque Split AWD system. Its default torque is well-balanced front to rear and adjusts in response to real-time traction conditions.

04 Subaru Global Platform

The Subaru Global Platform (SGP) is the underlying platform that will underpin the next generation of Subaru vehicles. Enhancing all-around safety and performance, it goes beyond better performance to offer a driving feel you can only find in a Subaru. It's the future of Subaru – and delivers even more enjoyment and peace of mind to all drivers and passengers.

More Fun to Drive
More responsive handling allows you to steer the car just as intended for better hazard avoidance. Even with its high ground clearance, the Forester securely hugs the road around turns, resulting in a car that's safer and more fun to drive, even on long trips.

Ride Comfort
Improvements in chassis rigidity, suspension, and stabilisers efficiently absorb shocks from the road and hide uneven surfaces, allowing more comfort and less fatigue on long rides.

Comfortable Cabin Space
Unpleasant vibrations and noise have been reduced to ensure all passengers enjoy the ride. Suspension improvements and a highly rigid chassis allow for a comfortable cabin interior for all.

Subaru All-Around Safety

When your car gives you peace of mind, life becomes more enjoyable. That's why at Subaru, safety comes first. Originally rooted in aircraft manufacturing, Subaru continues its 'people first' policy by fine-tuning, testing, and retesting its advanced safety features, developed over 50 years. With the latest in collision protection/avoidance systems and unique technologies like Subaru Global Platform and Symmetrical All-Wheel Drive, Subaru continuously strives to improve All-Around Safety to envision an accident-free future.

PRIMARY

Primary Safety begins at the underlying design stage. Outstanding visibility, optimal driving position, and intuitive controls help keep you safe from the moment you enter your vehicle.

PREVENTIVE

With advanced safety technologies such as EyeSight^{*1}, Preventive Safety helps avoid collisions before they happen.

ACTIVE

Thanks to technologies like Symmetrical All-Wheel Drive and SGP, Active Safety allows precise control of your vehicle by fine-tuning the basic elements of driving – driving, turning, braking – so you can enjoy each drive with peace of mind.

PASSIVE

Passive Safety is designed to keep you safe in the event of a collision, with features such as the cabin-protecting engine layout and SRS^{*2} airbags.

01

01 PASSIVE

Ring-shaped Reinforcement Frame

The Ring-shaped Reinforcement Frame makes better use of high-tensile steel panels and has been structurally redesigned for more efficient energy absorption from impacts in all directions.

06 PREVENTIVE

Steering Responsive Headlights (SRH)^{*4}

These headlights operate interconnectively with steering input and vehicle speed to aim your lights in the direction your vehicle is turning, helping you see better around corners for safer nighttime driving.

02

03

02 PASSIVE

Cabin-protecting Layout

The reinforced pillars and frame all work together within the Forester's SGP design to absorb collision impact from all sides to protect all passengers. In the event of a frontal collision, the engine and gearbox are designed to be pushed below the vehicle instead of crashing into the cabin.

07 PREVENTIVE

Reverse Automatic Braking (RAB)^{*3*4}

When in Reverse, this system uses four sensors on the rear bumper to detect obstructions behind the vehicle. If detected, the system can alert the driver with warning sounds and automatically apply the brakes to avoid a collision or reduce collision damage.

04

05

03 PASSIVE

Supplemental Restraint System (SRS)^{*2} Airbags

Front SRS^{*2} airbags, front side SRS^{*2} airbags, curtain SRS^{*2} airbags, and a knee SRS^{*2} airbag come standard on the Forester to give all passengers a higher level of protection in the event of a collision.

08 ACTIVE

Vehicle Dynamics Control System + Active Torque Vectoring

Vehicle Dynamics Control System adjusts AWD torque distribution, engine output, and brakes at each wheel to help keep the vehicle on course. And with Active Torque Vectoring, brakes are applied and less torque is distributed to the inside wheels and more to the outside wheels for more precise handling, helping you make sharp turns when necessary.

^{*1} EyeSight is a driving support system which may not operate optimally under all driving conditions. The driver is always responsible for safe and attentive driving and observance of traffic regulations. System effectiveness depends on many factors such as vehicle maintenance, weather, and road conditions. See Owner's Manual for complete details on system operation and limitations for EyeSight, including functions in this brochure.

06

07

04 PRIMARY

Visibility in all directions

Optimal driving position, window heights, and carefully arranged pillars provide excellent visibility in all directions to reduce blind spots, letting you easily check your surroundings.

09 ACTIVE

Auto Vehicle Hold

When the vehicle is at a complete stop, Auto Vehicle Hold keeps the vehicle in place even when the brake pedal is released, reducing driver fatigue in stop-and-go traffic.

^{*2} Effective when used in conjunction with seatbelts.

^{*3} The driver is always responsible for safe and attentive driving and observance of traffic regulations. Please do not depend solely on the Advanced Safety Package features for safe driving. There are limitations to the features of this system.

See Owner's Manual for complete details on system operation and limitations. Please ask your retailer for more details.

^{*4} Optional.

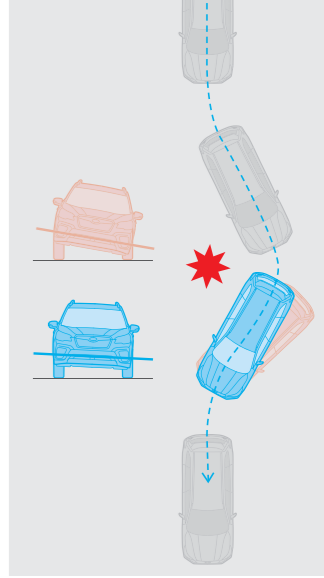

08

09

10

05 PREVENTIVE

Subaru Rear Vehicle Detection (SRVD)^{*3*4}

Sensors placed in the rear corners of the vehicle alert you of vehicles in your rear blind spots for safer lane changes. It also warns you of potential collision danger while driving in reverse into a street with cross traffic.

10 ACTIVE

Hazard Avoidance

Made possible by the SGP and Symmetrical AWD, the lower centre of gravity design, enhanced suspension system, and rigidity improvements provide a vehicle that responds immediately when evasive actions are taken, helping avoid hazards on the road.

Subaru EyeSight Driver Assist Technology

EyeSight*¹, Subaru's cutting-edge driving support system, works like a second pair of eyes for the road ahead, using a pair of stereo cameras to capture colour images with excellent image recognition – nearly as capable as the human eye. When spotting potential danger, such as

vehicles, motorbikes, bicycles, and pedestrians*², it warns the driver and applies the brakes when necessary, enabling even more confident driving and peace of mind.

Driver Assist

For illustration purposes only. Not actual measurements.

01 Adaptive Cruise Control

When it senses a vehicle in front, Adaptive Cruise Control maintains a set distance from the vehicle ahead by continuously monitoring the distance and speed difference and adjusting the engine, transmission, and brakes to keep your speed in line with traffic flow from about 0 km/h to 180 km/h. Designed for use on freeways, highways, and similar roads, it can detect a lead vehicle and its brake lamps to keep pace in stop-and-go highway traffic, reducing fatigue on long drives.

02 Lane Sway and Departure Warning

At speeds of about 60 km/h or more, Lane Sway Warning helps you stay alert with a buzzer and flashing indicator if it detects lane drift or sway. At speeds of about 50 km/h or more, Lane Departure Warning sends you a buzzer alert and flashing indicator when it detects lane departure without signaling.

03 Lead Vehicle Start Alert

When you're at a stop and traffic starts moving again, Lead Vehicle Start Alert prompts you to take action with a buzzer and a flashing indicator.

Accident Prevention

For illustration purposes only. Not actual measurements.

04 Pre-Collision Braking System*²

Pre-Collision Braking can warn you with a buzzer and flashing indicator when it senses an impending collision with an obstacle in front. If no evasive action is taken, the system can apply the brakes to avoid or reduce frontal impact. If evasive action is taken, the system can help the driver apply full braking force.

05 Pre-Collision Throttle Management

When there is an object in front and you put the gear in Drive instead of Reverse, Pre-Collision Throttle Management can alert you with a buzzer and a flashing indicator, and cuts engine power to minimise possible impact force and frontal damage.

*1 EyeSight is a driving support system which may not operate optimally under all driving conditions. The driver is always responsible for safe and attentive driving and observance of traffic regulations. System effectiveness depends on many factors such as vehicle maintenance, weather, and road conditions. See Owner's Manual for complete details on system operation and limitations for EyeSight including functions in this brochure.

*2 Pre-Collision Braking System may not work in all situations. Depending on the speed difference from objects, the object's height, and other conditions, every situation may not meet the necessary conditions for EyeSight to work optimally.

SUBARU e-BOXER

Subaru's New Power Unit System

The new-generation SUBARU e-BOXER combines the SUBARU BOXER engine with an electric motor to provide you with both sporty driving, as well as a quiet and comfortable cabin without unwanted noises and vibrations, even on rough roads.

SUBARU BOXER Engine + Electric Technology

For efficient driving, the SUBARU e-BOXER system adjusts the power-split ratio between the dedicated 2.0-litre direct-injection engine and the electric motor to match the driving condition. When paired with Lineartronic, the result is quiet, smooth, and powerful performance for a comfortable and enjoyable drive in many situations. What's more, the motor and battery's longitudinal placement along the vehicle's centreline complements the vehicle's stability and balance it gets from the low centre of gravity SUBARU BOXER engine and inherently stable Symmetrical AWD design.

Responsive Handling and Cornering Stability

Where handling may suffer in other motor-assist vehicles due to the extra weight, the strategic placement of SUBARU e-BOXER components maintains overall vehicle balance. The engine is placed low to the ground and the motor in the vehicle's centre, helping keep the responsive handling and cornering stability that Subaru vehicles provide.

Exhilarating on Highways. Confident on Rough Roads.

SUBARU e-BOXER vehicles rival the acceleration of petrol vehicles a class above, providing both exciting highway performance and confident driving on muddy or bumpy roads.

Convenient City Driving

The compact, high-performance electric motor allows responsive and quick acceleration when cruising or when slowing down, keeping city-driving convenient and stress-free, even in stop-and-go traffic.

FEATURES

- 01 LED Headlamps with Auto-leveliser**
These auto-leveling bifunctional LED headlamps combine low and high beams and are steering-responsive, ensuring good visibility around turns at night.
- 02 18-inch Aluminium-alloy Wheels***
The robustly styled multi-spoke 18-inch aluminium-alloy wheels are paired with 225/55R18 tyres.
- 03 LED Front Fog Lamps***
These stylish and sporty LED fog lamps have a large light coverage area, improving visibility at night or in poor weather.
- 04 LED Rear Combination Lamps**
The rear combination lamps give the Forester that distinct Subaru look with C-shaped lamps that represent its functionality.
- 05 Roof Rails**
Conveniently access the roof rails with the rear side sill steps. Loopholes* are available so ropes can be tied down securely and you can carry any object with peace of mind.
- 06 Dual Air-conditioning System**
The passenger-synced air-conditioning system efficiently provides a pleasant indoor cabin atmosphere to every occupied seat. Choose from four operation modes to adjust to anyone's temperature preference. For further convenience, you can also select your mode via the 6.3-inch Multifunction Display.*
- 07 USB Power Outlets (Front and Rear)**
USB charging ports are available for both front and rear seat passengers, increasing convenience for everyone.
- 08 Divided Seatback Pockets**
Conveniently keep your magazines, smartphones, and tablets organised with the divided seatback pockets.
- 09 Seat Position Memory Switch***
The seat memory function is linked to the position of the door mirrors for improved comfort and convenience. Plus, the passenger-side door mirror automatically tilts down when you shift into Reverse for better kerb visibility when backing up.
- 10 Rear Ventilation System**
Vent grilles have been installed behind the centre console box so rear passengers can travel in comfort.

* Optional.

EXTERIOR COLOURS

Owing to printing locations, colours may differ slightly from those shown in this chart. In addition, colours and seat variations may vary according to the individual market.

DIMENSIONS

Dimensions are measured in accordance with standard measurement of SUBARU CORPORATION.

Not all features, options, or packages are available for all models and regions. See your specification sheet for availability. Please contact your local authorised Subaru retailer for more details.

SUBARU CORPORATION reserves the right to alter specifications and equipment without notice. Details of specifications, equipment, colour availability and lineup are subject to suit local conditions and requirements. Please inquire at your local retailer for details of any changes that might be required for your area.
